

MINI Camouflage

YourMobile  Key

Hotek
HOSPITALITY & TECHNOLOGY

What are you locking for?

How does it work?

The HOTEK MINI Camouflage combines modern access control with the freedom to choose your Hotek door fittings.

You can choose from 4 design models, in stainless steel, brass PVD, black and anthracite PVD.

The appearance of your hotel is no longer determined by standard hotel locks. Apply your chosen Hotek door fittings to the doors of your hotel room, bathroom and any other door in your hotel.

The HOTEK MINI Camouflage works in combination with the Hotek SMART software and offers advanced access control possibilities for hotels, resorts and cruise ships.

option: no cylinder

option: Your Mobile Key©
