

# Meet YourMobileKey

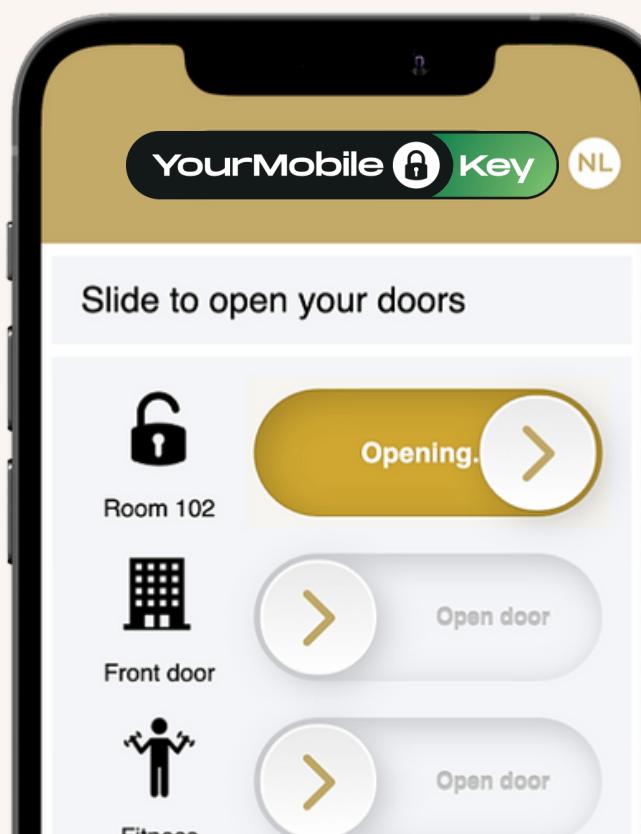

The key to your hotel rooms and guests

**HOTEK®**  
key player in  
hospitality

# What is YourMobileKey?

YourMobileKey enables guests to open their hotel room with their mobile phone and gives you an extra form of communication. This way you are not only fulfilling the hygiene needs of guests, but you also give yourself an extra point of contact to inform your guest with relevant information through the webapp or even to create an upsell by communicating new promotions.

 **Personal**  
Adapt your style

 **Safe**  
Hygienic: no more keycards

 **User friendly**  
No app install required

 **Compatible**  
With your current locking system

 **Realtime**

# How does it work?

ELECTRONIC LOCK + CLE CONTROLLER + GATEWAY = YOURMOBILEKEY

# Try now!

If you would like to offer your guests a more convenient, hygienic stay and give them a full contactless experience, time has come to be ready for the FUTURE!

Scan the QR code with the camera on your phone and try YourMobileKey for yourself!

YourMobile  Key

**HOTEK®**  
key player in  
hospitality

# KEYPLAYER IN HOSPITALITY

[demo.yourmobilekey.com](http://demo.yourmobilekey.com)

# LACK OF BLUETOOTH

# Safe access

Safe access to any room or space via locks and 'easy' access as a service to guests or users. With comfort and security we provide hospitality that makes any guest feel at home.

# Here's why we are different

Open Source  
that fits any electronic lock

IoT  
fully cloud hosted mobile key solution

**Online access control system**  
online key & access control, cloud key management system

**Communication platform**  
Stay in touch with your guest

**PWA (Progressive Web App)**  
No App Download & 100% made in Holland

# YourMobileKey

Open-source 'internet of things' online access control system.

Literally the key and information system for the user and simultaneously the key management system and communication platform for facility managers.

All this, together in just one PWA, without the need of downloading an App.

# The difference between YourMobileKey and Bluetooth

# Question

Would you bet your money on a solution that is not  
trusted as a safe payment method?
